

MRS. WALTERS TO BE HELD IN LOUISVILLE

Mother of slain convict lives in Iowa.
Member Good Rural Family—
Wife Adds Details to
Her Confession

JIM SPARKS FURTHER IMPLICATED IN CASE

Associated Press
LOUISVILLE, Oct. 9.—The Mrs. Lillian Walters demands an early trial. She will not be brought here from Louisville for examination in connection with the prison riot in which her husband, two other convicts and three guards were killed. The jail here is not secure was given in the riot on

Associated Press

LOUISVILLE, Oct. 9.—Authorities here today learned the mother of Monte Walters, shot to death in Eddyville prison riot, is Mrs. W. R. Walters, of Guthrie Center, Ia. It is said she is a member of respectable family in a rural community. Whether Walters was the convict's name or whether the mother married again has not been learned. Mrs. Lillian Walters, widow of the slain convict added a few details today to her confession yesterday in which she admitted she, with a former convict of Eddyville, purchased the pistols with which the Eddyville guards were slain. Her statements today tended further to implicate a former convict known to be Jim Sparks, whom authorities are seeking. Mrs. Walters has not yet employed a lawyer to defend her on murder charges in connection with the prison riot.

STILL BAILING AT ROSE HILL WELLS

Makes 2 or 3 Barrels Off a Day—
Local People Visit Virginia
Field

The drillers at the Rose Hill oil well are still bailing the material loosened by the shot of two weeks ago and fallen into the well. The well is making between two and three barrels of oil a day, which is being taken out by the latter with the loosened material, and dumped into the small branch of Indian Creek flowing alongside of the well. This oil is being carried by the water to Powell's river and beyond, leaving pools of oil in the back waters and quiet stretches of the stream. In many miles beyond the oil well. When this well is cleaned out it will in all likelihood make five barrels of oil per day.

J. H. Walker and his daughter, of Middlesboro, C. Bales and Rev. L. S. Anderson, of Rose Hill, all stockholders in the oil well company, accompanied by J. S. Lee, engineer, of Middlesboro, were over at the oil well Monday and selected a site for a new well about half a mile to the northward of the present well, and nearer to the crest of the anticline. Drilling of this new well will be started in the near future.

The oil found is probably from the "Sandyhook" sands, and is of greenish amber color, and of a high gasoline content and a well of five to ten barrels would be a paying proposition. In all the prospects for a productive oil field in this locality are very promising.

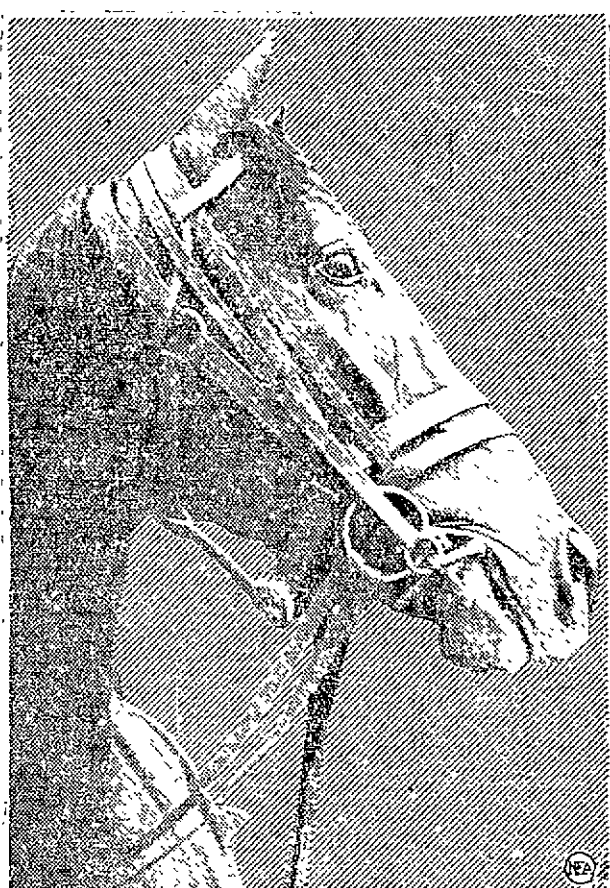

Little Child Struck by Wagon

The little 10-months old child of Jim Hensell was struck yesterday afternoon by a Bell County Lumber and Coal company wagon, driven by Doc Chadwell, near its home on Fleetwood road. The child was painfully, though not seriously, injured.

THWART ROBBERY DISTILLERY TODAY

Guards Tipped Off On Raid, Open Fire on "Bandits" and Put to Flight

Associated Press
LOUISVILLE, Oct. 9.—Bandits attempted to raid the Rogers distillery at Louisville. Two guards on duty previously received a tip of the raid. When the bandits appeared they opened fire. One man was seen to stagger and fall. They fled with him in automobiles after firing four shots at the guards. The distillery contained 2000 gallons of whiskey.

PAPYRUS

ODDS ON ZEY SHORTENING

Papyrus, English Colt, in First Work-out Today—Chances Better Than at First

Associated Press
NEW YORK, Oct. 9.—Papyrus, English colt, which is to race Zey in the International derby at a mile and a half October 20, was sent through his first real workout at Belmont park today. He galloped a mile and a quarter in 2:15.2. Although he was not pushed, observers said he appeared fatigued. Zey sprinted three furlongs in 1:17. Racing followers, however, are conceding Papyrus a better chance than at first. It was indicated today that a bet of \$10,000 to \$7,000 on Zey represented a considerable shortening of odds.

TEACH CHILDREN SAFETY RULES

Chief Bell Says Traffic Situation Will Have to be Taken Up Through Schools

The matter of safety regulations to traffic in the school district will be taken up with superintendent and the schools this week, according to Chief H. E. Bell, who said this morning that he believed this was the only way the matter could be handled. The school children are so ignorant in their observation of all rules for crossing streets, and so careless of themselves on the streets, while motorists, even though they may be careful have such difficulty in driving by the schools when they are out, that the chief believes a course of training should be instituted for the children.

"At the beginning of school," Chief Bell said, "we had an officer on duty all of the time that school was out to regulate traffic and direct the children across the streets. However, the children paid no attention to the directions and no amount of effort could keep them from running pell mell across the street, until the officers quit realizing their efforts were ineffectual. Children should be taught to cross the streets only at intersections," the chief continued, "and to be on the look-out for cars and to stop when they see them. Parents needed to teach them this. It should be done in the schools. Something must be done or a serious accident will happen."

BANDITS FREED LOCKHART OF JAIL

Oklahoma Desperado Sentenced 20 Years, Released by Unmasked Sunday

Associated Press
JAY, Okla., Oct. 9.—Famous men held up the county jail here Sunday and released Ed Lockhart, bank bandit. The bandits headed Lockhart a gun and fled with him in a motor car. The actual hold-up was committed by a youth of 18. The judge recognized him as a youth on the farm where Lockhart was captured last Thursday. Lockhart escaped after being sentenced 20 years for bank robbery. He is said to have been a member of the Henry Starr gang.

WILL SPEAK TO G. O. P. WOMEN

Mrs. A. T. Hart, Party Chairman for Women, Here Tonight at City Hall Rooms

A large number of Republican women are expected at the conference called at 7:30 o'clock tonight in the court room of the city hall to meet Mrs. A. T. Hart, chairman of the Republican women's state organization. Mrs. William Wallbrecht will preside at the meeting and introduce Mrs. Hart to the local women.

Mrs. Hart is one of the most enthusiastic Dawson for governor workers in the state. She has been particularly interested in this campaign because of the great interest which her late husband, national republican committeeman, took in Mr. Dawson. Mr. Hart was very anxious to see Mr. Dawson governor of Kentucky.

A reception committee composed of Mrs. William Wallbrecht, Mrs. J. R. Ramsey and Mrs. H. H. Hatchem will meet Mrs. Hart at the train tonight and entertain her during her stay.

IMMEDIATE OPERATION FOR CANCER ADVOCATED

Associated Press
CINCINNATI, Oct. 9.—Immediate operation for cancer of the stomach in the early stages will prolong life from five to twenty years in fifty per cent of the cases according to Dr. Joseph H. DeCoursey, chief surgeon of a hospital here. Dr. DeCoursey said that persons under thirty years of age who are suffering from stomach ulcer could be cured without surgical operation, while those beyond thirty should have stomach ulcers removed if there is not immediate response to treatment.

Physical examination twice a year was advocated by Dr. DeCoursey. It was pointed out that in many cases cancer developed from negligence and lack of information on the part of those suffering from ailments which seemed of minor importance.

"In many cases cancer could be prevented," said Dr. DeCoursey. "If a thorough physical examination had been undergone by the patient in the early stages of the illness. This is especially true in the case of women, who are hesitant about going to a physician until a cancer has fully developed."

TWO PINEVILLE BOYS HURT IN AUTO ACCIDENT SUNDAY

Pat Card, son of Mr. and Mrs. A. H. Card of Pineville, and Robert Green, son of Sheriff and Mrs. Martin Green of Pineville, were hurt, though not seriously Sunday afternoon when the Ford coupe in which they were riding collided with a Ford sedan driven by Joe McClure of Middlesboro. The coupe went over an embankment and through a fence, almost demolishing it. The Middlesboro car was slightly damaged. The accident occurred on the Page road, about half way between Pineville and Page. The coupe belonged to the Cards.

Henry Webb is erecting a four-room residence on Edgewood road.

DAILY NEWS TO HAVE FULL SERVICE ON WORLD SERIES

The Daily News has made arrangements with the Associated Press to secure the world series baseball games in detail form, for the benefit of its readers. These games will be bulletined in the window of Frazer and Overton, and printed play be play in the regular edition of the News.

ROUTINE WORK FOR COUNCIL LAST NIGHT

R. L. Maddox Granted \$2500 for Salary as Prosecuting Attorney in 1924—Bills and Resolutions Approved

SPECIAL SESSION ON STREET WORK CALLED FOR MONDAY

All members of the council were present last night at the meeting to consider routine business. Matters concerning street work, which were to be considered at this time, were not taken up because the city books are not ready and because J. L. Hubbard was absent from the city. A special council meeting, however, was called for next Monday night at 7 o'clock.

Reports of the treasurer and the chief of police for September were read and accepted and September bills were read and ordered paid if approved by the finance committee. The ordinance amending the city traffic ordinance on penalties passed its second reading.

The chief matter accomplished by the council was the award to R. L. Maddox of \$2500 for salary as city prosecuting attorney three years ago. Mr. Maddox served in this position under commission government but at the end of his term the point was brought up the office had been abolished before he was elected and that he could not collect salary. The matter had been hanging in the courts since that time. Several months ago, however, the court of appeals held in similar cases that the office had not been abolished. On advice of Judge T. G. Anderson, then, the city compromised with Mr. Maddox, settling for \$2500, rather than pushing the case and having the expense of going through the court of appeals again.

The council accepted a \$10,000 bond from the Hubbard construction company for Fitzpatrick avenue, referring the bond to the finance committee for affirmation.

A request of Mrs. Rosemary Perrell that she be released from automobile tax because she had not been a resident of Middlesboro since May was not granted because it was shown that she had continued to serve on the city council, necessarily as a resident, until August. Several assessments shown to be wrong, were corrected.

A petition for lights at Tenth street and Lehigh avenue where the East End district now goes, and at the East End church, was read with the signature of a number of East End residents. The council voted to put the lights at Tenth and Lehigh corner at once, and to refer the other lights asked to the light committee.

John Amusement company was released from taxes on the old Manning theatre for the period after it burned in 1921. The city voted to furnish slag for Petersburg avenue, between Dorchester and Worchester. If the residents would have it. Several building permits were granted, and other minor matters considered.

REVERSE GEORGE COLSON SENTENCE

Court of Appeals Throws Out Decision Giving 7-Year Term on Technically

Associated Press
FRANKFORT, Oct. 9.—Colson vs. Commonwealth, Madison county, 7-year sentence given George Colson for killing Ira Ball in Bell county, reversed on ground of no evidence discovered concerning threat, alleged to have been made by Ball.

RATS ARE GREAT MENACE IN U. S.

Destroy More Grain in Kentucky Than Humans Eat—Spread Disease

LOUISVILLE, Ky., Oct. 9.—The rat, the one immigrant which has become thoroughly Americanized during its 200 sojourn in the United States, today has become such a drain on the resources of Kentucky and upon its health that half dozen agencies headed by the State Board of Health have united as allies in the battle for its extermination. The rat at whose door is laid a food consumption equal to that consumed by the people of Kentucky has an estimate population in this State of 8,000,000 and yet to reach this Commonwealth, the rat swam rivers, blazed away through dense forests and escaped his myriad of enemies in the long trip from the Atlantic seaboard where it landed with the Pilgrim Fathers.

"The grain consumed by rats in this State equals in weight the total consumed by the entire population of Kentucky," said Dr. A. T. McCormack, secretary of the State Board of Health, in his appeal that every farmer and city dweller join with the State Board and the score of city health departments in exterminating this disease breeding rodent.

"The value of this food would pay off the proposed \$50,000,000 road bond issue. None of the species of rats are native of the United States. They were all imported. The brown rat, now the most common in Kentucky due to its viciousness went into Europe from Northern Asia, arriving in England early in the eighteenth century and shortly afterward, about the time of the American Revolution, its presence was first noted in this country. Strange to say the black rat which is now regarded as a visitor in our seaports, preceded the brown rat by several centuries both in Europe and America. The black rat, is said to have come from Southern Asia and the Alexandrian or roof rat, the third species found in America, is said to have come from Egypt."

Federal estimates place the upkeep cost of a rat at one-half cent a day and numerous instances have been cited to show that rats caused thousands of dollars damages outside of the food they consumed. Rats are also the greatest known disease carriers and have been the sole agency in transmitting bubonic plague into all parts of the world.

Rats are frequently infected with intestinal parasites, especially tapeworm. Trichina also is found in rats and these rodents are probably a considerable factor in transmitting the infection among hogs whence it may affect man.

The State Board of Health has compiled a number of formula which will exterminate rats and invites inquiries. One exterminator recommended by the State Board endorses the rat so that there is no odor from decaying matter. This also is inexpensive.

In using barium carbonate, another highly successful exterminator attainable at any drug store, these kinds of bait must be used, meat or animal substances, fresh fruits or vegetable food and milk or cheese. The barium carbonate must be mixed with each bait so thoroughly that no food can be eaten without some of the barium carbonate being also eaten.

The bait should be spread all about the premises. Barium carbonate is slow acting and sets up a condition which impels the rat to seek the open air, thus avoiding the annoyance caused when they die in their furrows or runways. Use fresh bait each night, and each morning look for dead rats and remove them.

REPUBLICANS DISCUSS WAYS TO GET FULL REGISTRATION

Between 50 and 60 active Republicans met last night in the city hall for a conference on ways and means to get a full registration out. Tomorrow is registration day again and Saturday is the last registration day and the last chance which Middlesboro citizens will have to make themselves eligible to vote at the important fall elections.

The republican workers agreed to make an intensive campaign for registration, employing cars for transportation and doing individual solicitation to persuade men and women to register.

MORRISTOWN BUYS STREET FLUSHER

Other Tennessee Cities Negotiating for Sprinkler and Flusher to Keep Streets Clean

MORRISTOWN, Tenn., Oct. 9.—A clean city is a growing city in the opinion of Morristown officials, who have just purchased a modern street sprinkler and flusher of 1,100 gallon capacity from the Cherokee Motor company of Knoxville.

Two weeks ago similar equipment was sold Johnson City and Col. Claude S. Reeder, president of the Cherokee Motor company says a number of cities in the Tennessee are negotiating for the improved sprinkler.

The equipment purchased by Morristown is very similar to the large sprinkler used in Knoxville, except that it has several innovations added. Principal among these is a high speed motor which supplies pressure to the water in the tank, enabling the flushers to take hard and other hardened substances from the asphalt.

The sprinkler and flusher is the last word in motorized equipment of this character, says Mr. Reeder. One of the novel features is a fire hose attachment, which permits the sprinkler to act in the capacity of a fire engine in case of emergency, the high speed pump being capable of throwing a stream of water that would be effective in any fire short of a real conflagration.

So efficient is the improved sprinkler that Morristown officials told Mr. Reeder they expected to save for their several miles of paving with this single piece of equipment.

MARTIN LEAVES FOR TWO WEEKS

Conducts Revival in Winchester, One Here on Return—Able Speakers Fill Pulpit

The Rev. Sam P. Martin, pastor of the First Baptist church, leaves today for Winchester where he will conduct a series of revival meetings at the Central Baptist church, of which the Rev. William M. Nevins is pastor.

J. T. Henderson, general chairman of the Stewardship and Tithing Campaign committee of the Southern Baptist convention will fill the pulpit of the church here next Sunday morning and evening, and will speak to the Barren class at the Sunday school hour. George E. Hays, prominent business man of Louisville, and member there of Dr. Finley F. Gibson's church will conduct services the next Sunday, October 21.

On the pastor's return he will conduct a series of ten x-ray sermons on the general theme, "Winning the Church," to continue from October 21 to November 10, night services only. The membership of the church is asked to arrange all their plans so that they may attend these services.

APPEALS TO SALVATION ARMY TO FIND LOST BOY

The local Salvation Army has been appealed to by John Link of Knoxville to help find his 10-year-old stepson, John Link or John Stablen. The boy is small and dark, with dark hair and the stepfather says he was working in a barber shop here as bootblack last Christmas time. He had not been heard from since. Capt. Steinhour of the Salvation Army asks that any one who knows anything about the boy to notify him that, he, in turn may notify the stepfather.

NO L. & N MEN LAID OFF HERE

Only Number of Men Needed Employed On Cumberland Valley Division, Explanation

There will be no lay-off of Louisville and Nashville railroad employees on the Cumberland Valley division, at least at present, it was learned at division headquarters here today. The question was raised after the announcement at Louisville chief headquarters that 1500 L. & N. employees would be laid off Wednesday.

This division has only kept in employment as many men as were needed all of the time. L. & N. officials said here today, and for that reason no workers could be spared at this time. In other divisions, especially South Louisville, a number of extra workers were put on at the time of the strike and although the railroad had practically caught up with all its work these men had been retained until the present time.

COOLIDGE IS OPTIMISTIC OF U. S. BUSINESS

After Conferences With Cabinet Leaders of Industry and Labor Head President Sees Only Good Conditions Ahead for U. S.

NO APPREHENSION FOR COUNTRY AT PRESENT

Associated Press
WASHINGTON, Oct. 9.—Although not desiring to pose as a prophet, President Coolidge regards the business future of the country as promising and looks for a continuation of present conditions which he believes on the whole are good. The president has received through members of his cabinet, leaders in industry and agriculture and representatives of labor, information which enabled him to make a survey of the present economic condition of the country. From these reports the future is indicated to a certain extent in the president's opinion and his belief is that there need be no apprehension as to the continuance of present conditions.

ALL IS SET FOR WORLD SERIES

Most of Seats Sold for First Game Tomorrow—Teams Seem About Even

Associated Press
NEW YORK, Oct. 9.—The world series gammon is promised agreeable weather for the first game of the Yankees-Giants series here tomorrow. The weather bureau says it will be fair with gentle winds. Already all stadium grandstand seats are sold, but not all seats at the Polo grounds have been disposed of. Opinion as to the probable outcome of the series seems about evenly divided.

BUILDING OPERATIONS IN CINCINNATI FALLING OFF

Associated Press
CINCINNATI, Oct. 9.—Building operations in Cincinnati for the month of September shows a falling off as compared with the same month last year, but the cost of the improvements for the nine months for 1923 are in excess of the nine months for 1922, according to the monthly report of the City Building Commissioner.

During September this year there were 1,564 permits issued as against 1,611 in 1922.

In the nine months of this year there were 11,400 permits issued, and the cost of the improvements \$22,581,720. For the nine months in 1922 there were 14,651 and the cost of the improvements \$22,450,000.

CLEAR AWAY LAST TRACES HARVEST FESTIVAL TODAY

The last traces of the Harvest Festival are being cleared away today. The merchants association is selling the salvage material used in making the booths and the stands, and with the revenue from this source and the contributions from the individual members of the association, all of the expenses incident to the festival will be paid off.

A meeting of the association will be held in the near future to close up the festival business.

TRAGEDY SEEN BEHIND SUICIDE

Missouri Clergyman Unable to Provide Home for Five Children Killed Self in Hotel

Associated Press
KANSAS CITY, Oct. 9.—Unrequited children ranging from 12 to 19 years decide to maintain a home for his five of age, is believed by police today to have been the principal motive behind the suicide here yesterday of the Rev. John William Jones, 47, prominent Episcopal clergyman. His body was found in a hotel room with a discharge shot gun. In a letter to his wife, a theatrical woman, he said, "let's call it quits and may God take care of you all."

COAL MINERS WANTED

50 first class coal miners for contract mining. Electric drills furnished. Average thickness of coal 5 inches, dipping vein 45 degrees, easiest kind of loading and fastest. Steady work six days a week. Our miners are earning from \$5 to \$17 per day. No gas. Good living conditions. Houses for married men that will stay for steady work. Good boarding house for single men. Bonus paid for good tonnage easily earned by 85 per cent of the men who work five days a week. No bonus allowed on less time regardless of tonnage. The above information all decided. Bring your buddy and go to work immediately. You will want to stay. Only men seriously wanting work wanted.

My Bonnie Bell

The spring comes in in one-
And sail winter in my flies
Now crystal clear are the falling
waters
And Bonnie blue are the sunny
skies
Fresh over the mountains breaks
In the morning
The evening glows the ocean
swell
All creeps joy in the sun's return-
ing
And I rejoice in my Bonnie Bell

The flower spring leads sunny
summer,
And yellow autumn presses near
Then in his turn comes gloomy
winter
The smiling spring again appears
Thus seasons dance, life advances
And
Old Time and Nature then changes
tell
But never again, such unchanging
I adore my Bonnie Bell

Republican Women's Conference Tonight

Mrs. A. I. Hunt, chairman of the
Republican women's organization in
Kentucky and an enthusiastic booster
for C. I. Dawson for governor, will be
the guest tonight of Middlesboro re-
publican women and will meet them in
a conference at the courtroom of the
city hall at 7:30 o'clock. Mrs. Hunt will
be met at the train and entertained by
a committee composed of Mrs. William
Wallbrecht, Mrs. J. R. Rimes and Mrs.
H. H. Hinkley. Mrs. William Wall-
brecht will preside at the meeting and
will introduce Mrs. Hunt.

SISTER MARY'S KITCHEN

Potatoes

If possible to store potatoes for
winter use, the housekeeper will find
it very much worth her while. There are
ways to buy foods or commodities
as possible and potatoes, ap-
ples, cabbage, turnips, carrots, winter
beets, winter squash and pumpkins
can be stored to advantage.

A family of two can use five bush-
els of potatoes during the winter
months. This means two persons with
average appetites eating normally. A
larger family will, of course, store
vegetables in proportion to the size of
the family and their needs.

Baked potatoes are an excellent
food. All the valuable mineral salts
are preserved in the baking. In the
fall when potatoes are perfectly ripe

SUGGESTIONS FOR PROVIDING BETTER HOMES IN AMERICA MADE AFTER TRIP TO EUROPE

In a review of housing conditions since the war, and this progress is in Europe and the United States submitted to the President by William Messinger, of New York, suggestion is made as to ways in which more and better homes may be provided by a variation of methods followed abroad.

Mr. Messinger was a delegate from the United States to the International City and Town Planning Conference recently held in Copenhagen, Sweden, in addition to which he visited most of the principal European countries studying especially the subject of town planning and housing.

After stating that many foreign countries are rendering housing assistance by making loans at 2-12 percent interest and in England in the form of a subsidy, Mr. Messinger says:

"As a result of this co-operation on the part of national and municipal governments, it was pleasing to see the splendid progress which has been made, for instance, at Christiania,

Your public appeal for the general adoption of such a policy would, in my opinion, be an action for great public, national good. As a business undertaking it is sound and conservative and some estates, wealthy corporations and individuals at the present time, fortunately follow this policy, but I am obliged to say that this policy is by no means general thru the United States. In fact the difficulties are so great in some localities that co-operation on the part of chambers of commerce is contemplated in order to provide funds for housing relief."

Responding to Mr. Messinger's communications, President Coolidge states that the information that it contains as to the progress of the world movement for better homes is indeed gratifying. The President adds that he has been glad to lend his name to the better homes movement in America.

KENTUCKY WEEKLY INDUSTRIAL REVIEW

Cooperation With New Industries Great Help in Prosperity of Country

The prosperity for our country depends upon the orderly routine of agriculture, manufacturing, commerce and public service. Every city, town and community can do its part by co-operating with new industries, keeping taxes within reasonable bounds and preventing disturbance of sound working conditions.

Augusta—Contract awarded for supplying steel work for new plant of Kentucky Power Company.

Louisville—Law School of University to be established at Center street in this city.

Mt. Olive—One contractor built seven tobacco barns in this district in just few weeks.

Hopkinsville—Dark Tobacco Growers Cooperative Association to build five warehouses, contract let for construction of two.

Louisville—Plans made for construction of \$5,000,000 bridge in this city to span Ohio river.

Georgetown—New Water, Gas & Electric Company to begin operation of power plant.

Louisville—Improvement of Jackson unit road in Carr township to cost \$15,561.

Falmouth—Contract awarded for construction of \$1,000,000 Masonic temple on Broadway.

Somerset—Work of placing tarriva on Stanford pike in this vicinity to begin soon.

Middlesboro—The section of Dixie highway between Middlesboro and this city completed.

This is ARCOLA WEEK

See ARCOLA tonight!

Many Heating Contractors who display this sign are keeping their stores open evenings this week, so that husbands and wives can see ARCOLA together.

But, only 5 homes in Middlesboro can have ARCOLA

THIS SMALL number of ARCOLAS allotted to this city will be sold this week—ARCOLA WEEK. Because of the shortage of heating equipment, no more ARCOLAS will be available until Spring.

We have not advanced the price. While they last, you can buy ARCOLA at these low prices, \$180 to \$550, completely installed, depending on the number of rooms in your home.

Think what this means! An American Radiator in every room; no rooms too hot; no rooms too cold; every room evenly warmed. And if your home is not warmed by radiators, ARCOLA will cut your bill a third and pay for itself in the money you save.

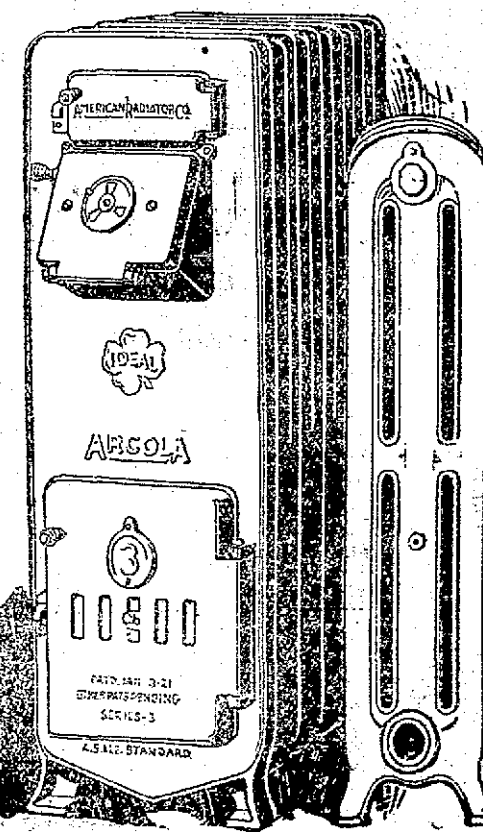

This is a great opportunity for a few homes. Will yours be one of the few? Go to your Heating Contractor today—or this evening; let him tell you just what ARCOLA will cost completely installed in your home, and how quickly and easily it can be put in.

Go, before they're gone.

AMERICAN RADIATOR COMPANY

IDEAL Boilers and AMERICAN Radiators for every heating need

TRY THIS BETTER SALT

In cooking or baking it is important that you use pure salt. JACK FROST TABLE SALT is of uniform, excellent quality. Don't let your grocer sell you a substitute for it. Remember the name.

Soldier Scarecrow
DYMCHURCH, England—A farmer near here, noticing the crows eating his crops, found the clothes on his scarecrow gone. They were later discovered being worn by a former soldier, who was arrested.

LOCALS

Hugh Allen left today noon for Louisville where he will attend the National Retail Lumberman's convention which convenes there this week. He will return Friday.

Mrs. B. H. Golden and Mrs. Jim Golden of Pineville were shopping here today.

G. H. Talbot is in New York city this week doing winter shopping for his store.

Mr. and Mrs. W. Gildersleeve of New York city are here this week visiting relatives.

Mrs. R. O. Matthews of Lincoln Memorial University was shopping here yesterday.

Miss Thelma Thompson of here and J. L. Crittenden of Hingay motored to Barbourville Sunday and spent the day with Mr. and Mrs. J. D. McDonnell. Mr. McDonnell drove back with them Sunday night and the four formed a party at the Hotel Cumberland for dinner. Mr. and Mrs. McDonnell then returned to their home in Barbourville on the train Sunday evening.

Bob Durham and Headley Carl of Pineville were here Sunday.

E. J. Leabow of Frontiera, Tabasco, Mexico, is visiting his parents, Mr. and Mrs. J. G. Leabow, in Middlesboro.

A. Graves, manager of the Remington Typewriter company of Louisville, is here on business this week.

Prof and Mrs. F. C. Gramis of Harrogate were here yesterday.

It. M. Warr of Pineville was in town today.

William Wallbrecht, Jr., of Frankfort, is spending several days here visiting relatives and friends.

Herbert Ralston was in Middlesboro today.

Potatoes Roasted With Meat
Wash and pare potatoes. If very large cut in half. Drop in boiling water and boil, uncovered, 15 minutes. Drain and plunge in cold water. Drain. Put in roaster with meat, sprinkle with salt and pepper and roast 30 to 40 minutes. Baste with drippings in roaster. The potatoes should brown while roasting, but if all the time is needed for the meat, brown the potatoes under the flame of a gas stove after they are tender and well basted.

When paring potatoes take as thin a paring as possible. The most of the mineral salts lie under the skin and these are lost if a thick paring is taken.

CLASSIFIED ADS
